

QCD: from Theory to Experiment

Symposium in honor of Marek Karliner

SUNDAY, MAY 10, 2015

TEL AVIV UNIVERSITY (9:00-18:00)

BEIT HATFUTSOT, ZEEVI AUDITORIUM

- | | | | |
|-------|--|-------|--|
| 09:15 | Gathering | | |
| 09:45 | Opening | | |
| 10:00 | ▪ Stan Brodsky (SLAC) | 14:00 | ▪ Jon Rosner (Chicago U) |
| | <i>Novel Quantum Chromodynamics Phenomena</i> | | <i>Mesons and Baryons with Heavy Quarks</i> |
| 10:50 | ▪ Yitzhak Frishman (WIS) | 14:50 | ▪ Itay Hen (USC) |
| | <i>Hadrons, Quarks, Solitons</i> | | <i>Power of Adiabatic Quantum Computing: Theory and Reality</i> |
| 11:40 | ▪ Einan Gardi (Edinburgh U) | 15:40 | Coffee break |
| | <i>Progress on long-distance singularities in gauge-theory scattering amplitudes</i> | 16:10 | ▪ John Ellis (CERN) |
| 12:30 | Lunch break | | <i>Symmetry Breaking: from QCD to the Higgs Boson and Beyond</i> |
