

Collaborative Clinical Bioinformatics Research

In anticipation of increasing collaborations between the Edmond J. Safra Center for Bioinformatics at Tel Aviv University (TAU) with clinicians at Sheba Medical Center (SMC), we are excited to announce a joint kickoff workshop of the Edmond J. Safra Center and the Cancer Center at SMC.

Our goal is to foster new collaborations by running a workshop that will bring together researchers from both institutions for short talk sessions.

The kickoff workshop will be followed by an announcement of a call for joint research grants.

The online workshop will take place on

Monday March 22, 2021

between 14:00 and 16:30.

Talks will be followed by round table discussions in small groups in virtual rooms based on specific cancer topics

Speakers:

Gidi Rechavi, Cancer Center, Sheba Medical Center

Malka Gorfine, Statistics Department, Faculty of Exact Sciences, TAU

Yair Bar, Cancer Center, Sheba Medical Center

Noam Shomron, Faculty of Medicine, TAU

Raanan Berger, Cancer Center, Sheba Medical Center

Ron Shamir, School of Computer Science, Faculty of Exact Sciences, TAU

Ben Boursi, Cancer Center, Sheba Medical Center

Asaf Madi, Faculty of Medicine, TAU

Tamir Tuller, Faculty of Engineering, TAU

To further promote such collaborations,
we are announcing a call for grants:

**Edmond J. Safra Center-SMC Cancer Center
Clinical Bioinformatics Research Grants**

[For details press here](#)

Deadline for submitting grant proposals: **10 May 2021**

Grants and Conference Committee: Noam Shomron (Co-Chair) Talia Golan (Co-Chair),
Irit Gat-Viks, Raanan Berger and Ron Shamir.
